DOG TAXES

There are still some dog owners in Strathmore who have not paid license fees for their dogs. If these licenses are not paid by April 16th, these dogs will be impounded without fee.

P. H. LILLY, Secretary-Treasurer

11-4

Fire Breaks Out at Demonstration Farm

At 2:30 on Saturday morning citizens of Strathmore were awakened by the ringing of a fire bell, and when they got out found that the alarm was from the C.P.R. Farm, where one of the buildings was already blazing furiously.

The building where the fire occurred is one formerly used as a greenhouse, and since then as a water house for the waterworks. It is located near the entrance to the farm and just behind the waterworks.

The pumping engine had been out for several days, and some of the farm staff had been repairing it. They got it running, and had just left the building when the explosion occurred inside, and within a few minutes the fire had taken a firm hold.

It is unfortunate that owing to the engine being out of commission the waterworks was empty, and no help could be got from that source. It is supposed that the cause of the fire was a gas leak in the G.W.V.A. in the Memorial Hall, had just finished at the time the bell rang, and the men in the hall rushed at once to the fire hall and got the engine down to the fire. It looked for some time as if the fire would spread to the waterworks and to a dwelling house close by, and the furniture was removed from this building. What saved these buildings was the deep basement, for when the walls had been burning for some time, they were pushed inward into the basement, and this confined the fire somewhat.

It was seen that nothing could be done to save the building which was the fire originated, and the attention of the firefighters was directed to the adjoining buildings, which were sprayed from the town engine, and a chemical engine from Irrigation Headquarters.

The blaze was a very spectacular one while it lasted, there being much material of a combustible nature stored in the building.

"The damage so far has been estimated. Considerable of the material belonged to the old greenhouse, and had been stored in the basement for a long time past.

It has to be said that the town equipment did not work as satisfactorily as it usually does at fires. On one of the engines one cylinder was out of order, and the water tank owned by the town did not arrive on the scene till half an hour after the alarm was rung, which delayed the retreating of the chemical engine.

The above remarks do not detract from the excellent work that was done by the firefighters, but there was a want of cohesion in the arrangements.

McDonald Kiddies at Memorial Hall

On Saturday evening last the McDonald Kiddies, under the direction of their talented teacher, Mrs. Anna McDonald, put on a performance in the Memorial Hall, Strathmore. There was a good house, and all present expressed themselves as delighted at the work of the seven little girls who comprised the company.

The dancing was a revelation of grace and beauty, and their acting also gave credit to the instruction. The dances comprised Irish, Scotch, folk and specialty pieces. The programme was interspersed with sketches, songs, recitations, etc., all very well rendered.

This is the second occasion on which the McDonald Kiddies have visited Strathmore, and it will not be the last. The first time they were accompanied by the company are: Marguerite Nolan, Emma Jackson, Georgia Playfair, Mary Nisim, Doris Cayley, Phyllis Crane and Margaret McEwan.

Namaka News

SERIOUS FARM FIRE

A serious fire broke out on the farm of Mr. Robert Biegar on Saturday last. It totally destroyed his house in which were twenty tons of alfalfa hay, also a bin of oats. The chop house and machinery shed was also a total loss. One set of harness and his best horse were destroyed. The rest of the harness and machinery was not out; thanks to the timely aid of Mr. Harry Shindler and Mr. J. P. Laurie. The fire originated from a piece of steel setting between the plates of the chopping machine. Mr. Biegar had only left the building about five minutes and on his return discovered the flames already started inside the building. All the neighbors and a bunch from town rendered all the assistance possible. Their energy was directed in preventing the fire spreading as it was impossible to do anything towards putting out the flames covered by insurance, and it will be a long time before it will be the time when he would be needing the barn most.

A dance will be held in the L.O.O.F. Hall on Friday next, the 13th inst. Mackie orchestra will supply the music, and everyone is invited. A good time is assured.

Mr. H. Miller was a visitor to McLeod last week.

Mr. H. Baker was home for a visit on Sunday.

Mr. and Mrs. D. Thomson were visitors to Calgary over the weekend.

Mr. J. W. McIntosh and Mr. Thompson were visitors to Calgary.

A well attended meeting of the U.F.W.A. was held at the home of Mrs. J. P. Innan on Saturday last.

Spring is here at last, judging by the number of cars seen on a city street during the past few days.

Mr. S. Laurie returned home from Edmonton where he put in the winter of the University.

M.D. Bow Valley

Hold Council Meeting

The regular meeting of M. D. Bow Valley Council was held on March 21st, when a large amount of business was transacted, among the items being the following:

Reduced accounts and seed grain discussion. Decided to offer 10¢ per full for all gophers caught within the Municipality.

Report by Councillor Wheeler on Hall Insurance Bond Convention. Only ten Municipal Districts had paid their 1922 levy. Bow Valley being among the ten. The Hall Board were being pressure to bear on the others to pay. Motions put forward by Bow Valley at Convention were lost.

Went Cheap Liquor

A reply to an inquiry sent in by the council as to whether it was not possible to get liquor for sick people at reduced prices, was replied to by the Department of Public Health, who stated that there was no authority for this, and that it was contrary to the Act.

A bill of \$2551.42 for the Government for grasshopper poison supplied, reduced prices, was replied to by the Department of Public Health, who stated that there was no authority for this, and that it was contrary to the Act.

It was decided to levy a business tax on businesses, trades and professions throughout the municipality, this to be based on rental values. The rate for Municipal purposes for 1923 was struck at 1.5 mills.

A request was made to the Government that they put the Strathmore Calgary road in good condition as soon as possible.

Baseball Meeting

On Wednesday, April 18th, the Strathmore Baseball Club will meet in the Town Hall for election of officers, discussion of plans for the season, etc. Baseball, after all, is the premier sport so far as the interests of the public is concerned, and everyone should turn out to the meeting, which will commence at 8 p.m., and help the club off to a good start.

COMING EVENTS

O. K. EXPRESS—After Monday phone No. 11, Strathmore, or call office building for shipments or deliveries.—W. R. Henderson. 11-4

The regular meeting of Strathmore Women's Institute will be held at the home of Mrs. Waldum, on April 18th. Mrs. Waldum will be assisted by Mrs. Ellen Way, who will give a demonstration of baking Graham muffins. Miss Margeson will give a paper on the life of Tenyson.

The American Ladies Guild are holding a bowling tournament after the lines of the one which proved so successful last year, on Thursday, Monday, and Tuesday next.

Commencing next week, Mr. M. S. Hittle will hold his picture show on Saturday instead of Wednesdays.

Ottawa, Ont.—Income tax paid by Canadian farmers in 1922 amounted to \$1,234,482 out of a total of \$78,483,454, according to a statement in the House of Commons, by the Hon. W. S. Fielding, Minister of Finance.

The number of farmers who paid income tax in Ontario in that year was 6,128, as compared with 1,870 the year before.

Seeding Commences

The warm weather at the beginning of last week was followed by a cold spell which continued to Saturday, the lowest temperature reached being 4 degrees below zero. Since then, however, it has turned warmer, and operations on the land have commenced. Seeding will start shortly. There is not much surplus moisture in the ground now, and to ensure a good crop a heavy precipitation will be necessary after seeding is completed. The area under cultivation will be about the same last year.

Several farm chimneys have taken place, had having been sold or rented, and some new settlers have arrived in the district, while some immigrants have come in to work on various farms throughout the district.

IRRICANA NEWS

Mr. W. McNeil, postmaster of Keoma, has raised Mr. R. Hally, Mrs. Jean Marshall was visiting at the home of Mrs. W. Swanton, Ardenode.

A number of golfers were on the links on Sunday.

Seeding will be general throughout the district if present weather conditions prevail.

Mr. George Long has left for North Dakota.

Mrs. Christina Stewart moved to and from Calgary on Tuesday.

Mr. Walter Black has noted the loss of Mr. S. J. Ewing.

Mrs. W. Dennis has returned from an extended trip to Ontario.

Mrs. Marco Reynolds is visiting at her father's ranch.

The Misses Gilchrist, of the local teaching staff, attended the convention at Edmonton.

Death of Mrs. Kondo

The death took place on Saturday at her home north-west of Strathmore, of Mrs. Kondo, age 36 years. The deceased lady was a native of Japan, and came to Alberta in 1921 to join her husband, who is survived by two children, a boy and a girl, who are still in Japan, and who are expected here this summer. The funeral service took place yesterday at 2 p.m., being conducted by Rev. A. Howe. Interment followed in Strathmore Cemetery, Mr. C. W. Chase having charge of the arrangements.

The late Mrs. Kondo and her husband had been living in the Japanese settlement, located northeast of Strathmore for over ten years. They have been well liked by their neighbors, both their countrymen and those of other nationalities, and much sympathy is being expressed with Mr. Kondo in his bereavement.

Presents Play

Members of the Langdon Tobekah Lodge have a very successful presentation on Monday, April 2nd, of the play "Lighthouse Man," before a large audience, in Langdon Hall.

The various characters were very well presented, and the audience fully enjoyed the evening. Following the play a dance took place to the music of Hirtle's orchestra.

Those taking part in the play were: Miss Olive Robertson, Mesdames Roger Dyer, Walter Alecock, M. S. Brown, and McKell, Messrs H. W. Jossey, Leon Jossey, Ed. Armstrong, Walter Alecock, and Geo. Whitney.

LINKING CANADA AND THE STATES

This automobile has become a national institution for transcontinental touring and in United States five million persons last year are recorded as having whirled from one national park to another. Boston to the Pacific Coast by motor is getting to be as casual as train travel.

With a camp outfit tied to the running boards and a few additional auto parts, the motorists are able to dress in their sports clothes, throw gear to the wind and search out Nature with the help of a little gasoline.

Hotels are only used on both ends, as the chief fun is in the open in the open and cook over a camp fire, or, as is the case throughout the West, over specially built camp stoves established in the open places. Rustic camps are also placed in most of the national parks.

where motorists may rest for a few days, in cabins rented at moderate prices and within a short walk of a community house and dining hall.

The Canadian Pacific Rockies are this year to be open to all such motor tourists, for the Canadian Pacific Railway, has completed the Banff-Windermere automobile road, which throws open Banff, Lake Louise and Windermere Valley to motorists.

Bungalow camps are being planned at beautiful points in addition to the regular travel which comes by rail.

The new road will be formally opened on June 30th and will permit the whole tide of motor traffic up and down the Pacific Coast to travel from San Diego to Portland.

thence up the Columbia Highway to Spokane and so on, through the Canadian border, up the Windermere valley, through the Canadian Pacific Rockies to the famous resorts of Banff and Lake Louise.

From Lake Louise the motorist may go to the Valley of Ten Peaks and Moraine Lake. This is entirely new country for the tourist approaching from the West, although the road from the East, Calgary to Lake Louise, through Banff, has been in operation for years.

The connecting of this link makes possible for motorists from the East to tour all the National Parks of the United States and visit those in the Rockies as well. The roads from one end of the Canadian Rockies to the other are generally excellent. The cost of such motor trips is cheaper than having a home, say the motor tourists.

Carseland Notes

The baseball game in Cuba's new season, on Wednesday was a financial success. The music was provided gratis by Mr. Simpson, Miss Dick, and Mr. Trench. An enjoyable time was had.

A new school building for next autumn seems now to be assured. The trustees assisted by the building committee, are visiting Arrowwood School to see how the moving partition which is used there between the classrooms is constructed, and what satisfaction it is giving.

Mr. James Gibson, of Gleichen, who purchased the garage last autumn, has taken up residence in Carseland for the summer and will give the garage business his personal attention.

Bob Woodrow has left for Florida, where he expects to reside in future. Alvin Pichat has come to Shelby, Montana, and expects to reside there or travel further afield.

W. J. McCoub has left for Iowa, where he will be in future residence. It is fortunate for the district that new comers will replace the old friends in number, and nevertheless they will all be very much missed.

Carseland U.P.A. and E.P.W.A. held their regular meeting Saturday afternoon. The U.P.A. passed resolutions to be sent to our central body and to the vicinal members urging their best efforts in securing reduced freight rates for the west, also resolutions to the Alberta Government asking that they seriously consider at the present session the reduction of seasonal dues.

The U.P.A. is living up to a reputation of other like organizations in the Province, for they presented to the School Board a resolution asking for medical examination of the school.

If the U.P.A. members who were absent from our last meeting knew of the good things in which the school treated us, they would surely have been there. Thanks to the E.P.W.A. organization, and here's hoping they will continue their good work—G. C. McLeod, Secretary.

Eight pages of the world's best comics, also a wonderful book of magic for children, in the Sunday Chicago Herald and Examiner. Circulation over 1,000,000. Buy it today. Wm. Laurie, Carseland, agent. 25-4

TURNER NEWS

Some of our farmers got the spring fever, but the recent cold spell drove it away, so they are convalescing. Mr. and Mrs. Byron Keen have moved to Carleton Place, where Mr. Keen has a lucrative position. We all wish Ray success.

Mrs. Walter Keen made a short visit to her friend, Mrs. Davis, at Kootenay. Mrs. Vidal, with the assistance of our local ladies have a comfort at last for last Friday evening, on account of the weather and poor advertising, not many attended, consequently a small purse was the result. It was a sobering, Peter.

Mr. and Mrs. McKillop, of Calgary, are spending the week end with Mr. & Mrs. Fryer.

Mr. Lawson is building a new grainery. He expects a bumper crop so we hope he won't be disappointed. Bob, Alvin and J. A. McNabb spent part of the week at the fat stock show. They report good stock but poor prices.

The papers say that the farmers of Dakota are selling out and coming to Alberta.

Keoma Council Meets

The council of M. D. Keoma met in regular session at the Municipal Office on April 2, 1923, for the transaction of business, the following members being present: Messrs. Scratch, Irving, McLean, Powers and Donkin.

On motion Mr. Scratch was elected Mayor for 1923, and presided over the meeting. Mr. MacKenzie was present and the contract with the Strathmore Standard for 1923 was ratified. Considerable discussion took place in regard to road inspection and it was agreed that the matter of road inspection be left under supervision of each respective councillor for his division, provided to appoint whom he chooses, and special rule set for same.

A by-law was passed providing for levying of a business tax upon certain stores, elevators and etc. Assessment notices will be sent out later and special rule set for same.

The following committees were appointed for 1923:

Finance—Messrs. Scratch, Irving, Donkin, and Powers.

Education and Health—Messrs. Irving, Powers and Donkin.

Printing and Supplies—Messrs. Irving, Scratch and Donkin.

Public Works—Messrs. Irving, McLean and Scratch.

Post and Woods—Messrs. Irving, Powers and McLean.

Legislation—Messrs. McLean, Irving and Powers.

The above committees were appointed with a view of relieving the Mayor of much of the responsibility which has heretofore fallen to his duties, and it has been generally recognized never adequately recompensed. It is hoped that by this method of delegating into committees it will equalize the work and responsibility.

The striking of the rates occupied the greater part of the meeting. While the rate of economy was adopted as was carried out last year, it is not proposed to purchase any new machinery or do extensive work on roads, after considerable discussion \$1000 was appropriated to each division for road work. The mill rate was fixed at 2 mills for Municipal purposes. While the rate was only 1 mill last year it was possible to run on that reduced rate for one year by having a surplus of arrears to collect which was successfully managed though the assets were reduced \$6000. This year we have not got this large volume or assets and are forced to a slight increase. As comparison it is pointed out that the average rate for 1915 to 1921 inclusive was actually 7.5 mills, so the current rate may be appreciated as considerable below the average.

The mill rates for schools were not as follows:

Altonville, 2 mills; Harvey, 2 mills; Keweenaw, 3 mills; Ryan, 2 mills; Keoma, 2 mills; Dorcas, 2 mills; Northgate, 3 mills; Valley Garden, 5 mills; Laydon, 7 mills; Paddy Springs, 12 mills; Hines, 23 mills; Turner, 4 mills; Baintree, 6 mills; Jarvis, 6 mills; Bruce Lakes, 4 mills; Landover, 10 mills; Chesdale, 20 mills.

FRANK J. EWING, Secretary-Treasurer

Our school house is getting a trifle congested, and we wonder what will happen when some of the large families of small children grow up. Maybe the U.P.A. hall will be built by then.

An excellent definition of the word "postoffice," a place where Stenographers find their fountain pens filled.

Baintree News

W. A. Lyons has rented B. O. Wyman's place, and will spend a portion of the land this spring. The balance will be summered. Bert will be away this summer, but Mrs. Wyman and the children remain on the farm.

Miss De Millie went to Calgary on Thursday evening to spend her vacation with relatives.

Messrs. W. A. Lyons, R. A. Fallows and Sven Swenson have returned to resume operations on their respective farms. With the increase of hired help, our units throughout are so filled that it looks like no-wear there.

Miss Francis Wyman spent the Easter holidays with her parents at Baintree.

Mr. Mills, of Calgary, is the guest of Mr. and Mrs. J. B. Strickler, Oscar Olsen, who has been in the neighborhood for the past six weeks, left last Saturday for parts unknown. He carries with him the good wishes of his many friends.

P. A. McElwan went to Calgary last Thursday on business. During his absence Timotheus, with a few assistants, entertained the customers.

The excellent man in which V. C. Chapman plays the part of Gideon Lomax, in "The Country School Man," makes us wonder where else he got his training. Add that we don't know, if we could like like that word used not into the movies.

The school kids have only playing machines for the more exciting and remunerative sport, namely, catching geese for a cent a tail.

In our young days a cent was real money, and we can't remember making a contract with an elderly lady to do all her chores for two cents a week. On being paid each Saturday she said the wages were too low and she would give us a hen or a turkey, and urge us not to spend the money all at once.

Honoree Wise, who left the district for Indiana some time ago, writes that his wife has presented him with a baby girl. Congratulations, old timer, but by rights it should have been Canadian.

Mr. and Mrs. Ed. Lyons spent a pleasant day in Calgary last Saturday.

A number of our neighbors have been very successful with poultry this winter and Mrs. Harry Trout, Foster Smith and John Molins have been getting excellent returns. Mrs. Trout, who keeps about 500 pure-bred chickens has been shipping and has sold to dozen eggs a week during the cold weather. Her buildings, which could weather, have proved a great success and she plans to hatch 2000 chickens this season.

Mrs. McMillan, who has been seriously ill for some time was removed to one of the Calgary hospitals on Thursday evening. Her many friends in the district wish her a speedy recovery.

Frank Tyson and nephew, Earl Peterson, were visitors to the Baintree home on Sunday.

Mr. P. E. Wyman, who is president of the Baintree U.P.W.A., went to Tabor last week to assist in the formation of a similar organization in that district. A very successful meeting was held, and officers were appointed for the current year.

The snowfall last Wednesday put an end to the harvesting and disking that was being carried on.

During the very changeable weather that prevailed last week, we were undecided as to whether we should put on our summer or winter undergarments. By way of a compromise we put on both and were quite comfortable.

What every complexion needs

Palm and olive oils—nothing else—give water's true lather in Palmolive Soap.

Once every day your skin should be gently but thoroughly cleansed of all accumulations of dirt, perspiration, cold cream, rouge and powder.

Every tiny pore must be freed from clogging accumulations, so that the network of minute glands can do their necessary work. If you fail to cleanse the skin daily it will get sluggish and inactive, lifeless and sallow. Blackheads will develop, the filled up pores will clog into unsightly coarseness and dirt infections, irritation and pimples will result.

For this cleansing you must use a mild soap. Palmolive is made from Palm and Olive oils. For thousands of years these rare oils have been used by famous beauties. They were highly prized by Cleopatra.

Today these oils are blended to produce the most famous of all modern soaps—Palmolive. It produces a genuine creamy lather which is as smooth as a lotion. It penetrates every tiny pore and removes every trace of dirt, oil and cosmetics, leaving the skin wonderfully smooth, fresh and rosy.

You can buy Palmolive at all first-class dealers.

ARDENODE NOTES

A most enjoyable concert was held in the schoolhouse on Friday night under the auspices of the U.P.A. and one again the good crowd present were delighted with the excellent entertainment provided by our good friends from Calgary. Mr. and Mrs. Evans, Mr. and Mrs. Moore and Messrs. Gilbert and Moore.

The various items on the program, which included solos, duets, trios and quartets were vigorously applauded, as also were the violin solos by Mr. Plesner, and the recitation by Misses Annie and Dolly Jones, Johnny Horde, Teddy James and Charlie Mills. Two well-rendered efforts in his own inimitable manner, which met much applause.

Owing to the length of the program it was impossible to allow too many encores, but the artists obliged on several occasions. The U.P.A. and its visitors with musical honors, and after several dances with music by Mrs. Thurston's orchestra, Messrs. Plesner and Dolly Jones, and for which there was keen competition.

After supper dancing was resumed and continued well into the middle hours. The crowd dispersed well pleased with their evening's entertainment.

Carbon News

Mr. Oscar Keller, accountant at the Bank of Montreal, Strathmore, who formerly occupied the same position here, was back in Carbon for the holidays.

Instead of solitary rambles down the railroad track, Mr. A. Taylor has for the past few weeks been taking a keen interest in golf.

Mr. J. C. Smith, of the Alberta government telephone, was in Carbon on Easter Monday. In the course of a conversation with him, we gathered that the Macdonald Curling Trophy was relinquished by Acme to Carbon in order to save Acme the trouble of keeping it clean and nicely polished over the summer.

A beautiful rendering of Easter music was given at the Presbyterian church on Easter Sunday evening by the following choir: Altos, Mrs. C. Corra, Mrs. Wilson; Sopranos, Mrs. Holmes, Mrs. McGee; Tenors, Messrs W. Revitt, (swallow), Messrs A. H. Johnson, L. B. Hart, J. A. McDonald and S. N. Wright. Opening hymn, "Ye Gates Lift Up Your Heads," Anthem, "Hail Thou on the Lord," Hymn, "Christ the Lord Is Risen Today" (choir); Solo, Mr. W. Revitt, "One Sweetly Solenn Thought," Hymn, "Look Ye Saints," Solo, Mr. W. Revitt, "I Have Done My Task," "Low In the Grave He Lay," was sung as an offertory piece. Mrs. S. L. Torrance was at the organ. For his sermon Rev. Mr. Hattie preached on "Some Points of Immortality."

Read Lloyd George's important article on the European crisis in Sunday's CHICAGO HERALD and EXAMINER, Circulation Over a Million. Buy It Today.

Rockyford Locals

Mr. Sherman Harvey arrived back to Rockyford Saturday morning. Mr. Harvey, who comes from Independence, Iowa, reports that the weather was mild there when he left, and was such in evidence. Mr. Harvey was somewhat surprised that we had such a mild winter here.

Angus Cockburn has been in Rockyford for the past week with his father, who is local buyer for the A. P. Grain Co. We are always glad to see Angus for a boy of his years, he seems to have more humorous wit than is usually seen.

The Trail Rangers and the Girl Guides are giving a banquet to their fathers and mothers on the evening of Friday, April 13th. After supper a programme will take place down stairs. After the toasts and program denials the people will be asked to go upstairs to the auditorium of the church where a program consisting of lantern slides and music will be given. Everybody interested is invited to attend the program upstairs, to which there will be an admission of 50c. Don't miss this young people's entertainment.

We have heard that Mr. Scott, Bank Manager, of Rosedale, is the father of a new boy. What he is going to be, Mr. Scott, a baseball player or a curdling Scott.

Miss Elmer, who has been at Portland, Ore. and vicinity for the past three months, returned home Saturday morning. We sincerely hope that Miss Elmer will enjoy improved health from now on.

As we are about to go to press an unconfirmed rumor has just reached us to the effect that the Moose Ball Baseball syndicate, of Strathmore, have offered \$17,500 to the Rockyford Baseball association for the release of Chick Miller, our new champion and Massey-Harris Currier. Mr. Blake has been negotiating for these two men all winter, and if he can secure their release, he is sure they will be a team of strength to the Strathmore team.

We understand that the village council have decided to have a clean up week some time this month, and arrangements have already been made for the commencement of a carload of dogs to the town council of Strathmore. The council of Strathmore municipality held their regular meeting on Saturday, April 7th. Details in next issue.

The bachelors of Rockyford are holding a dance in Stone's Hall on Wednesday, April 18th. Mrs. May's Spice orchestra will furnish the music. Admission \$1.00, which will include supper. Messrs Katterbach and Erwood are the committee in charge of the arrangements.

We are told that a slight indisposition necessitated a trip to Calgary last Saturday on the part of Alice Fraser. We have been unable to gather any definite information beyond the mysterious words "Cue Brand Bakins, Soda," "Dink!" Will someone please enlighten us?

On Easter Sunday Mr. L. Dixon and Mr. W. A. Trishner made a flying trip to Calgary.

Mr. K. S. Shaw was called hurriedly to the coronation of the bed of his brother, who is very ill. He made the trip on Easter Sunday, driving with Tom McCubbin.

Mrs. A. Mackay left for High River on Saturday, where she will spend a short time with her parents.

Mr. Tom Douglas, an old timer of this district, at present located at Soda Creek, B.C., is back this week in town, looking after some farming interests and renewing acquaintances. He intends to return on Thursday night.

Congratulations to Mr. and Mrs. F. Ward on the birth of a daughter, the little at the Shannon Mine, that was recently blown in a big wind storm, has now been repaired and business is going on as usual.

Baseball News

The special committee in charge of the sale of the baseball tickets commenced their duties on Saturday afternoon. Although only out a few minutes they managed to sell twenty-seven tickets and have not yet started in earnest to canvass the people.

Each \$2.00 ticket, and the committee, wish to thank the following for their donations: Rockyford Drug Co., Rockyford Hardware, \$10.00; Ryan and Elliott, Perry Edwards, \$5.00; Miller and Clemens, \$4.00; F. Ryan, B. Edwards, T. McRobbie, J. McRobbie, \$2.00; A. L. Miller, L. Hurd, L. Perkins, \$2.00; making a total of \$54.00.

All donations will be acknowledged in the columns of the "Standard."

"Old Red" must be getting stronger, as the editor has noticed some of the "old favorites" out knocking up their breaking arms by tossing the ball round.

Apparently it won't be long before the dress rehearsal is called, and soon the crack of the ball meeting the bat will be the only music for the fans.

To settle all rumors and reports, let me state that the Rockyford team of last year will all be on the job this year, with the addition of the best left hander in the province, Lefty Brown, and if regulations go through, a real catcher will also be seen in action.

BIRTH IS NEW COUNCILLOR

Nominations of candidates for councillors to fill the vacancy created by the resignation of P. T. Fraser, was held Saturday night in the Municipal office.

Nomination papers were filled out and signed by a large number for Alex. Simpson and Tom. Hilt.

Mr. Simpson declined to act, and there being an opposition, the returning officer, E. W. Post, declared Mr. Hilt elected, to serve the balance of the present year.

SUNFLOWERS VERSUS GREEN OATS FOR SILAGE

In the Province of Alberta, where dairy farming is increasing, the question of providing a succulent silage for the winter months becomes more and more pressing. Two silages are used by dairy farmers in the green stage, are found to make suitable silage for dairy cows. A test was made by the Dominion Experimental Station at Lacombe to compare with values of these two crops for silage purposes. Each of several lots was fed the same amount and kind of grain and so work silage as the animals would consume. The sunflower silage being less bulky than the oat silage, a larger weight of the former was consumed, and at the same time a less amount of hay was eaten. The cows receiving sunflower produced milk at 5 cents per hundred pounds less than those receiving the oat silage. The profit when sunflower silage was fed amounted to 52 cents on 100 pounds of milk as compared to 41 cents when oat silage was used. There was little difference to record in the gains made by cattle fed on the two rationes. It is concluded, therefore, that the average yielding herd in the Prairie Province sunflower silage is at least equal to oat silage.

Edmonton, Alta.—Two carloads of Alberta seed wheat, cleaned and graded at the government plant at Edmonton, were shipped to the United States during the past week, one car going to farmers in North Dakota and another to farmers in South Dakota, for seed purposes. About a car went from the government plant to Steele Bridge, a car to Toronto. The plant, which has been enlarged by the Department of Agriculture, has so far marketed nearly 10,000 bushels of high grade seed.

Regina, Alta.—The forty tank cars of oil from the Sweetgrass country in Montana, have already been shipped to Regina in preparation for refinement in the new refinery now building here.

Tudor U. F. W. A.

The newly organized Tudor U.F.W. A. Local met at the home of Mrs. C. A. Brown, on Wednesday afternoon in spite of a fine snow storm the attendance was good, twelve members being present.

The officers of the Local are: president, Mrs. C. A. Brown; vice-pres., Mrs. C. A. Brown; treasurer, Mrs. Marion Schaffer; secretary, Mrs. H. W. Leonard. The directors are Mrs. C. A. Brown, chairman, and Mrs. R. A. Brown, Mrs. Marion Schaffer, Mrs. W. McMillan and Mrs. H. W. Leonard. At this meeting the following committee were appointed:

Program—Mrs. J. A. Remick, chairman; Mrs. L. Dennis Schaffer, Mrs. R. S. Frayne, Mrs. Marion Schaffer and Mrs. H. W. Leonard.

Entertainment—Mrs. C. A. Brown, chairman; Mrs. W. McMillan and Mrs. R. A. Brown.

Membership—Mrs. Fred Heitman, chairman; Mrs. C. A. Brown, Mrs. R. A. Brown and Mrs. R. S. Frayne.

It will be seen that the organization of the Local has been well thought out and looks like business and no doubt with these committees in action good progress will be made in the work of the local. Several other subjects of importance were discussed, among which was that of showing the members how to run a Local. More power to their arms. Such advice is badly needed. It always takes a good woman to clean up a mess, anyway. The regular meeting will be held the second and fourth Wednesdays of the month at the home of the members. The next meeting will be at Mrs. R. A. Brown's on April 25th.

After the serious matters of the meeting had been disposed of the members proceeded to dispense of a very delightful lunch served by the hostesses, Mrs. C. A. Brown. A few of the members who are always attentive to their wives, and who had brought them to the meeting and were hanging round to be ready to take them home, were also allowed to participate in the feast. Mrs. Brown's reputation as a provider of delicious meals was not entirely unknown to these men.

A word to the wise is sufficient: gentlemen, take your wives to the U.F.W.A. meetings, and stick round a while.

Golfers Organise

The first meeting of Strathmore Golf Club for the forthcoming season was held in the Town Hall on Thursday evening, when officers were elected for the forthcoming season, and a scheme outlined for the improvement of the course.

Officers were elected as follows: Hon. President, H. R. Simpson; President, G. H. Patrick; Vice-President, Jas. Van Tighem; Sec.-Treas., E. O. Lohdale; Captain, A. H. Brown; Convenor of Green Committee, Roland Hill; Convenor of Membership, John Mackenzie; Convenor of Entertainment, Dr. Givins; Handicap Committee, Thos. E. Wright, F. H. Young, A. Lydall, with ex-officio members.

A meeting of the lady members of the golf club has been called for Saturday evening, April 10th, at promptly 8 o'clock in the Town Hall. Those who played last season, and those who intend to play this season for the first time, are urged to attend.

Fees for the season were set as follows: Gent., \$5.00; Ladies, \$2.00; Juniors, \$2.00.

It was decided to institute a campaign for members immediately so that money would be available to improve the greens and course.

The course is now in operation, and a number have been taking advantage of it.

Tennis Club Meeting

The Strathmore Tennis Club held their annual meeting in the Town Hall on Friday evening, April 6th, under the capable chairmanship of Mr. G. H. Vickers, president.

Mr. Vickers, in his address thanked the retiring officers for their untiring efforts during the past season, and for the enthusiastic way in which they performed their duties, thus making tennis one of the most popular games in the district. Miss K. Fairlie was given special mention, as her efforts to increase the membership of the club proved an undoubted success.

Officers Elected

The officers of the Tennis Club were elected for 1923 season as follows:

Hon. President, Mayor H. W. D. Bell; President, G. H. Vickers; Lady Vice-President, Mrs. A. W. Givins; Gentlemen Vice-President, H. S. Van Buren; Secretary-Treasurer, C. S. Lait.

Members for the different committees were also chosen and will be notified by their respective chairman.

Successful Season

Mr. C. S. Lait, secretary-treasurer in his report, explained the good financial standing of the club, along with the many successful enterprises undertaken during the past season.

It is very commendable that our town should possess such a live and enthusiastic club. At present negotiations are underway to form a league with many of the adjoining towns and several clubs in the city of Calgary.

The following games for the forthcoming season.

Business Discussed

During the course of the evening many important matters were discussed of the question of 1923 fees calling for much discussion.

The meeting, after careful consideration, decided that it was advisable to raise the fees to \$4.00 per member, to ensure the club a good financial standing in case the membership called for additional costs to be made.

Mr. H. S. Van Buren was duly appointed manager of the course, and we hope all members will give him their utmost support.

The duty of selecting players for the inter-club games fell to A. H. Rowe, G. H. Vickers, and Miss Macgregor. With a difficult task, we feel sure it is in capable hands when being handled by the above committee.

In his closing remarks, the secretary made a special request that all who had become members, please hand their names to the president or himself immediately so as to enable them to draw up the schedules as soon as possible.

The meeting then adjourned, feeling sure of their success during the coming season.

Local Bittings

OF LOCAL INTEREST
 Readers are requested to send in items for this column not later than 12 o'clock Monday noon preceding day of publication. All items must be accompanied by the Standard. Phone 17 or 68

The reductions made in school grants by the Provincial Government, if passed as proposed, will affect Strathmore school districts to the extent of about \$500. This will mean an additional charge to ratepayers of the district. Last year the Government grant amounted to approximately \$2200.

A liquor store has been opened in Calgary, under the amendments to the Liquor Act passed recently, and druggists in Calgary will be limited to 1 gallon per month, while prescriptions will be filled at the new store. We understand that Mr. M. E. 805, at Strathmore, has received an appointment in the store, and we trust he will keep Calgary in good spirits.

At a meeting held recently, it was decided to hold a School Fair in Strathmore this summer, provide the various schools in the district will participate. The secretary, Mr. C. S. Lait, has written for the secretaries of the various schools, and a prompt answer is requested, as it will soon be time for distribution of seeds.

The school fairs held in Strathmore have been very successful from the point of view of the children, and many splendid exhibits were shown. We trust that the committee will be able to set the fair going again this year.

That, of course, depends on the attitude taken by the schools. The amount raised is only \$10 to each rural school, and as the amount of seeds distributed and the prizes given financially and otherwise.

Rev. A. D. Currie will be in attendance at the Diocesan Conference in Calgary at this time.

A very enjoyable social and dance was held under the auspices of Strathmore G.W.V.A. on Friday evening last.

Members of the club, on invitation being extended to friends of the members and members of the Ladies Auxiliary.

The early part of the evening was spent in progressive whist, followed by supper. The prizes were in the whist tournament were Mrs. Hinchin and Mr. Pennington.

After supper dancing was carried on until the early hours of the morning, by Mr. and Mrs. Hirtle.

Following the supper a short talk was given by Comrade Mackenzie, secretary of the Hall Committee, outlining the financial condition of the hall, and asking the support of the public generally to entertainments, etc. held in the hall.

Mr. Harold W. D. Bell was recently elected Grand Superintendent for Grand Chapter of Alberta, District No. 4.

The "Dassano Mail" has the following to say: The Strathmore people were considering giving presents to the bride of Prince George, the young lady being a sister of the Strathmore family.

They have a lack of John Mackenzie's hair." Speaking personally we may say that the probabilities are that Bob Anderson will operate on his shortly, and we will give him all the help he wants, with liberty to give it to the Duchess of York or otherwise, in exchange for a contribution of the Dassano product "Red Deer Special."

Mr. Geo. Walters is building a new house and lawn north of Ardmore, Alta.

Mr. Douglas McKay left on Saturday evening to join his brother at Fort Moody.

As will be seen from our address in columns, Strathmore G.W.V.A. Ladies Auxiliary are holding a dance in the Memorial Hall on Friday evening of this week.

As the proceeds of the dance will be entirely devoted to the improvement, and in improving a good time is assured, we trust to see a large attendance.

The holiday is again on the tapis. The Board of Trade discussed the subject at a meeting held last night, and a report will be published in next issue.

A daughter was born to Mr. and Mrs. Will Knight in Calgary recently. The child is now the official organ for Grasswood and Kroma Municipal Districts.

Strathmore U.F.A. have conducted a membership campaign with much success during the past two weeks, and have added a large number of new members.

CORN VS. SUNFLOWERS AS A SUMMERFALLOW SUBSTITUTE (Experimental Farm Notes)

The value of corn as a substitute for summerfallow has been fully proved and demonstrated. At the Brandon Experimental Farm the yield of wheat on corn land has exceeded that on summerfallowed land by an average of 2.58 bushels per acre for six years, and only once during that time has the fallowed land produced a heavier yield of wheat than the corn land. The difference in cost of production is due

to the fact that the cost of the fallow is charged against the following crop of wheat, whereas the corn crop constitutes a revenue, and only in case of a failure of that crop is there any deficit to be charged against the following wheat crop.

The suitability of sunflowers as a summerfallow substitute has caused considerable controversy in recent years. The general opinion has been that sunflowers are very hard on the soil, this conclusion has been based on the fact that the sunflower land rarely produces a satisfactory grain

crop or is attributed to the large water requirements by the sunflower plant during the growing season, and questions that need chemical data for their elucidation.

At this Farm corn and sunflowers were grown side by side as a summerfallow substitute, in 1921. Wheat was sown on both plots in 1922, the wheat on the corn land outyielded that on the sunflower land by 15 bushels and 26 pounds per acre. The wheat on the sunflower land matured about two days earlier and had much shorter

straw. It was badly tip burned on June 22nd, whereas there was no sign of tip-burn on the corn land on the adjoining summerfallowed plot. This would seem to indicate that the sunflowers had made a heavier demand on the moisture, during the previous season than had the corn, and that therefore was not sufficient moisture in the soil to carry the crop through a critical period. Moisture determination made during the season on adjoining corn and sunflower land showed that the sunflowers had used up

approximately 10 per cent. more moisture than the corn during the growing season.

In 1920, corn and sunflowers were grown on this farm under field conditions, and were sown on two uniform and contiguous tracts of land. The whole block was sown to oats in 1921 and received uniform treatment. The oats on corn land yielded at the rate of 58 bushels and 26 pounds of oats per acre, while the sunflower land yielded at the rate of 29 bushels and 5 pounds per acre. It was also noticed

that the oats on the sunflower land matured fully two days earlier, and had considerably shorter straw, than the oats on the corn land, which fact would strengthen the opinion that less moisture had been stored in 1920 on the sunflower land. As to weed infestation, there was practically no difference, the sunflowers being equally effective in keeping down weeds.

S. J. SIGFUSSEN, Assistant, Experimental Station, Brandon, Man.

Hervey News

Gade Brothers are the first in the neighborhood to start seeding. Making a beginning on April 2nd.

Mr. J. E. Patterson is peddling his large crop of potatoes in Calgary these days. He reports a very favorable price, all things considered. Perhaps this accounts for the extensive re-modelling he is doing on his house. He is finishing the dining room in blue, the living room in gray and the bedrooms are done in natural wood.

bedrooms are done in natural wood.

Mr. and Mrs. H. S. B. Chamberlain and family, Mr. and Mrs. Geo. Kearns, Mrs. John Kent, son and daughter, and Mr. and Mrs. Chris. Hagen, were among those from this locality who attended the concert at the Memorial Hall Monday evening, and report a most enjoyable evening's entertain-
ment.

Miss Marian Chamberlain spent the Easter recess with friends in Calgary. Miss Dorothy and Mr. Howard Kent are home from their years schooling at Claresholm.

The Hervey U.F.A. held a meeting on Thursday last, when matters of importance to the members were discussed. The matter of the resolution to the C.P.R. was brought up and thoroughly discussed.

Mr. Boyce, Inspector of Schools, was in the district this week, and held a rate-payer's meeting while here.

Mrs. Jennie Pugh spent the Easter recess with the home folks.

Some of our poultry specialists are much pleased over a few especially nice broods of downy little chicks hatched out in time for Easter.

The neighbors and friends of Mr. H. Conda were greatly surprised to hear of the death of his wife, which occurred on Friday. The family have the heart-felt sympathy of all who knew them.

Mr. Antone Droe has moved his family back into the Hervey district for the summer.

Mr. John Kent attended the "Bull Sale" and purchased a pure-bred Aberdeen Angus Bull, the animal has all appearances of being a fine animal. Mr. John A. MacDonald, of Forest Lawn was a caller in this district on

district on Sunday p.m.

RUCKSTELL 2-SPEED AXLE

In those parts of Canada where poor road conditions have hampered the use of motor trucks, a new development for the Ford truck called the "Rocket" 2-speed axle is making available this economical method of transportation. This device adds 74 more speeds to the Standard Ford low and high gears, an emergency low which enables full engine power to be applied at the rear wheels with 50 per cent. less car speed, and an intermediate high, half way between the Ford low and high gears.

The Ruckstell 2-speed axle is especially useful in hilly districts. All parts working in oil, the intermediate gear permits noiseless climbing of long grades without undue wear. The added flexibility in heavy traffic is a decided advantage to truck owners, so much of this work being done in congested factory, wholesale and retail districts.

A striking illustration of the hill climbing ability of the Ford car equipped with the Ruckstell axle was afforded by a test climb of Mount Wilson, California, in 38 minutes, the fastest official trip ever made by any stock car. The trip was made under observation of local automobile experts and newspaper men.

Calgary, Alta.—This year's first shipment of horses from Alberta to Prince Edward Island left here recently. It consisted of sixty head of splendid Clydesdales and Percherons. There has been a steady and consistent demand for Alberta-bred horses during the past few years in the Maritimes and quite an extensive trade has been built up.

"I Don't Believe In Advertising!"

This used to be a common saying, but it is so no longer. Advertising is not now a matter of belief or faith, but it is a proved necessity to every man who aspires to conduct a progressive business, and cater to the public.

For the business man located in the Western Irrigation Block, The Strathmore & Bow Valley Standard is the logical medium. It is cheaper to use and more effective than circulars and other forms of advertising, and can be effectively combined with these. It has a guaranteed circulation of 1100 copies per week, all but approximately 100 copies going to residents within the Block.

Advertising is an investment, not an expense, but you must use it intelligently and persistently to get the full benefit from it.

Looking Forward

The more you think about the future, and about Opportunity and Success, the more enthusiastic you become about being a money saver.

If you have mastered the art of saving, you can forecast with reasonable accuracy how much of a factor you will be in the days of opportunity which are drawing near.

Vernon, B.C.—The Oshagan district
shipped a total of 2,400,000 boxes of
apples in 1922, nearly 100,000 boxes
more than in the previous year; an
official estimate issued here indicates
caches and cherries also made substantial gains.

HOUSECLEANING

THE WORK THAT COMES WITH SPRING

Household Ammonia, pt. 25c
Castile Soap, large bar 25c
Cedar-Camphor Flakes, per
package 25c
Moth Balls, pound 50c
Rubber Gloves, pair \$1.25
Lysol, bottle 25c and 50c
Chloride of Lime, lb tin 25c

Every housecleaning job can be done quickly and
efficiently, without extra labor, loss of time or
heavy expense. Little odds and ends of accessories
too, such as rubber gloves to protect the
hands, and chap lotions if the hands become
chapped. Make up your list of housecleaning
wants now, or let us make it up for you. We
have the goods, and we are quoting the lowest
prices.

Slats' Diary

Friday—We had quite a romantic
time here at home for the last
few recent days my
cousin Harriet was here
visiting with us. She
got intended to go to
young man of an acquaintance
and they got right thick on the side
of each other. They
met 1 week ago today
and by his Tuesday he
was calling her by her
first name and now she
is calling herself by his
last name in other words
they are married and
pa says he hopes they
decide to take their honeymoon
trip soon or else he will have to
mow the car for more groceries.
Sat. Pa and Jack's pa it is he
be in infant 4—nations and he
replayed and he never did till he
found some pepper in his handker-
chief 1 day time ago.
Sunday—I was telling me what was
the difference between a bride and
a husband and she said about the
only difference she new of was that
a bride groom always washes the
dish when he was a setting around
the house on Sunday a reader the
day paper. She said it had as if
she expected it to have some effect on
pa. But it did not.
Monday—Dug Stevens has got all the
kids stumped when it comes to the
one hundred of nerve. Today he said
me to come him 15 cents and I said
only had a dime and he said well you
can give me the dime one one two
Nickel. Off all the nerve.
Tuesday—Pa is a getting restless to
make a garden these nice warm sun-
shiny days and I am afraid he is
going to go throw with it and that
means that I am going to be kept
restless most of the summer time when
it comes time to golfing and play-
ing base ball.
Wednesday—Today teacher sent me
what is the past tense of drink & I
said drank then she said what was
the past tense of sink and she said
sank and then she said what was
the past tense of sink & I said
sunk and we all laughed heartily
until teacher wrapped the desk with
her ruler.
Thursday—More fun in class today
than teacher was asking or about
Ancestors. When she came to Tony
Sponchuk he said all his Ancestors had
got drowned in the Atlantic ocean
while they was taking a trip across to
live in this country.
